PROJECTS

Our Last Sync

Aug 2025 - Present

Creator & Lead Programmer

- Created and led a 2-player co-op sci-fi game across two MFA semesters, now continuing solo toward a **Steam** release.
- Programmed core systems in **UE5** with **C++**; movement, input, and two linked player abilities (black-hole pull, white-hole push) for **local** split-screen and **online**.
- Built a Steam multiplayer backend, full UI flow, dialogue system, and a synced two-player door mechanic.

Kamikaze

Aug 2024 - May 2025

Lead Programmer

- Led programming for 2 to 4-player local co-op shooter built in **UE5** and shipped on **Steam**.
- Programmed core match systems (health, scoring, weapon, respawn) and the multiplayer pipeline (input, possession, split-screen).
- Built a modular **weapon system** in Blueprints, integrated mocap animations, and shipped the build.

Data Mine

Nov 2024 - Mar 2025

Solo Developer

- Solo built and shipped a 2.5D platformer in **UE5**, concept to release, as a **fellowship project**.
- Built a 4-part economy system (health, energy, money, data) and a mining mechanic using line traces.

EXPERIENCE

Programming TA, Summer Game Studio

Jul 2026

Clark University, Worcester, MA

- Taught "Unreal Engine 101" workshops (2 sessions), introducing the engine and Blueprints, building a small game live with students.
- Set up **GitHub** + **Git LFS** for student teams, fixed merge conflicts and assisted with programming issues.
- Helped run programming lectures, troubleshooted technical issues across Unity and Unreal, and assisted in packaging final builds for a public showcase.

EDUCATION

MFA - Interactive Media

May 2026

Clark University, Worcester, MA

B.Tech - Computer Science & Engineering

May 2024

VIT Bhopal, India

SKILLS

Languages: C++, C#, Blueprints, HTML / CSS

Engines: Unreal Engine 5, Unity

Tools: Visual Studio, Git / GitHub, Plastic SCM, Trello, Maya
